New-Way Wonder
for Corns, "Gets-It"

The Big Surprise for Corn Owners.
It's Sure, Simple, Safe, Quick.

Listen to the wee story of "Gets-It," the world's greatest corn remedy. It's a short story—only about two feet. "Mary" had a little "Gets-It," and corns upon her toe; and every time

Stop Misery and Embarrassment Like This With Simple, Easy "Gets-It."

she put on "Gets-It," the corn was sure to go. Mary, like thousands of others, used to be a heroine, suffering martyrdom, using painful bandages, irritating salves, sticky tape, toe-harnesses, blood-letting razors and scissors. She says now there's no sense in it. Use "Gets-It," applied in 2 seconds. Easy, simple, new way—just painless common sense! Millions are doing it. Never fails. You can wear smaller shoes now. You don't have to limp around any more, or walk on the side of your shoes to try to get away from your corns! You know for sure before you use "Gets-It" that the corn or callus is going away. For corns, calluses, warts and bunions. "Gets-It" is sold by all druggists, 25c a bottle, or sent direct by E. Lawrence & Co., Chicago. Sold in High Point and recommended as the world's best corn remedy by the Mann Drug Company and the Hart Drug Company.

Red Men Entertain.
The entertainment given by members of the I. O. R. M. at their lodge room in the Bevil building Tuesday night was largely attended by friends of the order. The evening was opened with prayer by Rev. G. F. Milloway. Following this a musical number was rendered by a quartet composed of Messrs. Boyle, Brewer, Hayworth and Simmons. The speaker of the evening, Prof. D. M. Weatherly, was introduced by R. E. Andrews. Prof. Weatherly took as his subject "Redmanship." After Prof. Weatherly's address, another number was given by the quartet, and delicious refreshments were served. The affair was most enjoyable in its ever detail.

May Have Gold Mine.

John Farley, a Greensboro negro, believes that he has discovered a gold mine in Greensboro. He has done further prospecting since then and says that an expert chemist he has consulted tells him that he has a rich mine.

Printers' Ink Did It.

Of course you have heard of El Paso, Texas.
Every time anybody says "Texas" you think of El Paso.

No, this is not an advertisement of the Texas town.

What made El Paso famous?

Ink.

Nor is this an advertisement of ink.

It is a preachment about what ink can do for you, and about the way we stand ready to help ink serve you.

The Review Printing and Advertising House.

El Paso, Texas, is the best advertised town in the United States. It doesn't pay for very much of its advertising. It gets it by having things happen in its locality. And accounts of what happen at El Paso are NEWS, and these accounts are printed in the newspapers.

And these accounts always start off with the El Paso date-line. You have read the El Paso date line so often that it has impressed itself on your mind.

That is PUBLICITY.

Publicity is the act of impressing something upon the public mind.

Publicity is a species of psychology.

Nobody knows just what psychology is, but a lot of people make believe they do. In some universities and high schools they teach it. It is also taught by experience.

Good purveyors of publicity have a psychological gift for impressing things on the public mind.

We have it.

A CARD

We wish through the columns of your paper to express our appreciation of the many acts of kindness shown us during the illness, and the sympathy shown to us after the death of our husband and father. Our neighbors and other friends were considerate and thoughtful, not only in our hour of bereavement, but were, while he yet lived, and this we especially appreciated, as he knew that the friends he loved so well were with him to the end.

FALL SESSION
GREENSBORO COMMERCIAL COLLEGE
Greensboro, N. C.

While the commercial subjects are being discredited by many for other subjects of learning, there are no others so popular with business men. If you were a candidate for a position what kind of work could you do? Do you believe after telling a business man you could not use a typewriter or take his dictation and that you did not know anything about bookkeeping or commercial forms he could use you?

If you learn Bookkeeping or Shorthand it will serve you as a daily companion every day in the year and will introduce you to the many businesses that will pay you well for your services.

It is hard for any one to get employment at a living wage without a knowledge of the commercial subjects. If you will consider the pay of the average bookkeeper and stenographer and the position they are in for advancement you will be thoroughly convinced that a course with us will be a profitable investment. We have prepared hundreds of good positions and we can prepare you. School established 15 years.
